

the fact that the *Journal of the American Medical Association* (JAMA) has been the most widely cited journal in the field of medicine for over 100 years (Roberts, 2000).

There are a number of reasons why the JAMA has been so successful. First, it has a long history of publishing high-quality research. Second, it has a strong reputation for being a leading journal in the field of medicine. Third, it has a large circulation, which makes it a valuable resource for many researchers. Finally, it has a strong editorial board, which helps to ensure the quality of the research published in the journal.
