

the *Journal of the American Medical Association* (JAMA) and the *New England Journal of Medicine* (NEJM).

These two journals are the most widely read and cited in the United States. The *JAMA* is published weekly, while the *NEJM* is published biweekly.

The *JAMA* is published by the American Medical Association (AMA), a professional association of physicians. The *NEJM* is published by the Massachusetts Medical Society.

Both journals are highly respected and are considered to be the gold standard of medical research.

The *JAMA* and the *NEJM* are both indexed in the *Index Medicus*, a database of medical literature.

The *JAMA* and the *NEJM* are both available online, making them easily accessible to researchers and clinicians.

The *JAMA* and the *NEJM* are both highly influential in the medical community, and their findings are often cited in medical practice.

The *JAMA* and the *NEJM* are both highly respected and are considered to be the gold standard of medical research.
