Sass Color Functions

```scss
// SCSS

$button-color: hsl(242, 29%, 36%);

.button {
  background-color: $button-color;

  &:hover {
    background-color: lighten($button-color, 16%);
  }

  &:focus {
    background-color: darken($button-color, 8%);
  }

  &:disabled {
     // change-color - тоже самое что hsl(hue($button-color), 20%, 80%);
    background-color: change-color($button-color, $saturation: 20%, $lightness: 80%);
    color: invert($button-color, 10%);
  }
}
```
